Reference Lists

A reference list follows the text and footnotes in a separate section headed References. All references cited in the text must be listed in the reference section, and vice versa. It is the authors responsibility to ensure that publication information for each entry is complete and correct.

References should be double-spaced.

List all references in alphabetical order by first authors' last names

Include first names and surnames for all authors. Use first-name initials only if an author used initials in the original publication. In these cases, add a space between the initials, as in R. B. Brown and M. L. B. Smith.
