

Welcome to the SMU Geothermal Lab newsletter for February. This month we have an(s&MCID.5)4.5(M)93(v)-8.5(e)4rd

\_\_\_\_\_ for the 2016 Power Plays conference and workshop. Are you looking for a way to increase your company's visibility? Become a Power Plays conference sponsor and help admance the understanding of cumTLf-1.9(o)6.6(t3c 0 Tw 3c 0 Twft)-6u1 Tc a13.3(c)-1 Tc a1

to take advantage of the early bird rate, and to secure your slot in the workshop.

- **Student registration** thanks to generous sponsorship from SedHeat, discounted <u>student</u> registration is available until April 12, 2016.
- Social media follow us on <u>Twitter</u>, like us on <u>Facebook</u> and check out our new <u>blog</u>. Share our posts and help us get the word out about the conference using #SMUPowerPlays.

## **SMU Geothermal Laboratory Notes**

Congratulations to Andrés Ruzo on launching the Boiling River Project, a 501(c)(3) nonprofit dedicated to protecting the Boiling River in the Amazon and its surrounding jungle. Check out their website at <a href="http://www.boilingriver.org/">http://www.boilingriver.org/</a>. You can purchase the book "The Boiling River: Adventure and Discovery in the Amazon" by Andrés Ruzo at <a href="http://www.ted.com/read/ted-books/ted-books-library/the-boiling-river">http://www.ted.com/read/ted-books-library/the-boiling-river</a>.

*Congratulations* to **Ben Phrampus** on his new position as National Energy Technology Laboratory Methane Hydrate Fellow. Good luck in Oregon!

## **Geothermal News and Notes**

Good luck to Jared Smith of Cornell University on his upcoming thesis defense. Jared's thesis is titled A Coupled Numerical and Geostatistical Heat Flow Model for Geothermal Resource Reconnaissance Applied in the Appalachian Basin.

CanGEA is hosting a **Summer Internship Program** for students and recent graduates who are CanGEA members. Registration is due **February 26, 2016**. More information: <a href="http://www.cangea.ca/internship-program.html">http://www.cangea.ca/internship-program.html</a>.

Breeze Energy in Dallas, Texas is looking for several driven, creative and outgoing individuals for a paid internship, starting in March 2016. The positions are 6 or more hours per week and / or some key weekends and would suit someone interested in special events, marketing/advertising, environmental studies, or journalism. Send a cover letter with your resume and weekly / weekend availability to cdowgwillo@breezee1e.5(w)-3.4(illo)-6.6(@)1.7(-9.6(m ink &MCID 8 BDC)TBT0 g-0.002 Tw 3.239 00 0 11.04 72 478.213.7

## This Month's Highlighted Resources

## **Geothermal Information**

- The Geothermal Technologies Office (GTO) has information on all forms of geothermal energy including Enhanced Geothermal Systems, Hydrothermal Resources, Low-Temperature and Coproduced Resources. <a href="http://energy.gov/eere/geothermal/geothermal-energy-us-department-energy">http://energy.gov/eere/geothermal/geothermal-energy-us-department-energy</a>
- The National Renewable Energy Laboratory (NREL) offers tools such as <u>Geothermal Prospector</u> which will guide you through the geothermal development process, and <u>System Advisor Model</u>
